

This Cover Page is an important document.

- It highlights the key features and risks of this product and should be read together with the Policy Illustration, Product Summary and Bundled Product Disclosure Document, where applicable.
- It is important to read the Policy Illustration, Product Summary and Bundled Product Disclosure Document, where applicable, before deciding whether to purchase this product. If you do not have a copy of these documents, please contact us at 1800 248 8000 or your Financial Services Consultant / Insurance Representative to ask for them.
- You should not purchase this product if you do not understand or are not comfortable with the risks of this product.

AIA Platinum Heritage Wealth (II)

Product Type	Participating Whole Life Plan
Premium Term	Single Premium
Policy Term	Until the Life Insured is 100 years old
Name of Insurer	AIA SINGAPORE PRIVATE LIMITED
Policy Currency	US Dollars

WHAT ARE YOU PURCHASING?

This is a participating whole life plan which offers you insurance coverage and also invests part of your premiums in the insurer's Participating Fund. It comprises guaranteed and non-guaranteed benefits and may not be suitable for you if you want all benefits to be guaranteed.

WHAT ARE THE KEY RISKS OF A PARTICIPATING PLAN?

By purchasing a participating plan, your premiums will be pooled together and invested with premiums from other policyholders in the Participating Fund managed by AIA SINGAPORE PRIVATE LIMITED. As a policyholder, you will share in the risks of the Participating Fund, including:

Investment Risks	Lower than expected investment returns earned by the fund
Insurance Risks	Higher than expected claims made by policyholders (e.g. due to death, disability or other terminations)
Expense Risks	Higher than expected expenses incurred for managing the Participating Fund

These risks can affect the performance of the Participating Fund which in turn affects the bonuses or dividends paid to you. Such bonuses or dividends are not guaranteed until declared.

ARE THE PARTICIPATING FUND'S ILLUSTRATED INVESTMENT RATES OF RETURN GUARANTEED?

The Policy Illustration shows two Illustrated Investment Rates of Return (after deducting investment expenses) of 4.75% per annum (p.a.) and 3.25% p.a.

They are not guaranteed and do not represent the upper and lower limits on the investment performance of the Participating Fund. They also do not represent the expected or actual returns of your participating plan.

Date 19-Mar-2026

WHAT RETURNS CAN YOU EXPECT FROM THIS POLICY BASED ON THE ILLUSTRATED INVESTMENT RATES OF RETURN?

Based on the Illustrated Investment Rate of Return of 4.75% p.a., your total Illustrated Yield upon surrender at age 88 is 3.03% p.a.

Based on the Illustrated Investment Rate of Return of 3.25% p.a., your total Illustrated Yield upon surrender at age 88 is 1.48% p.a.

These returns are not guaranteed and do not represent the upper and lower limits of the returns you may receive.

Please note that the guaranteed surrender benefit of your policy may be less than the total premiums paid.

You can compare 3.03% and 1.48% Illustrated Yields upon surrender with the returns of Singapore Savings Bonds and Singapore Government Securities. You may refer to www.mas.gov.sg/bonds-and-bills/singapore-savings-bonds and www.mas.gov.sg/bonds-and-bills/singapore-government-bonds-information-for-individuals for more information on the returns of Singapore Savings Bonds and Singapore Government Securities. Please note that the Illustrated Yields upon surrender have taken into account the cost of insurance and expenses incurred.

HOW HAS THE PARTICIPATING FUND PERFORMED OVER THE LAST FEW YEARS?

The historical investment rates of return (after deducting investment expenses) of the Participating Fund are shown below. The Participating Fund can be separated into a few sub-groups; the figures below refer to the investment returns for the sub-group or class of products that this policy belongs to.

	2022	2023	2024	Averaged over the last 3 years	Averaged over the last 5 years	Averaged over the last 10 years
Investment Returns	-20.3%	5.8%	1.1%	-5.2%	-0.2%	N/A

Please note that historical performance may not be indicative of future performance.

Changes in the economic and investment environment may affect the investment performance of the Participating Fund and the bonuses or dividends that you may receive.

HOW WILL EXPENSES INCURRED BY THE PARTICIPATING FUND AFFECT YOU?

The expenses incurred by the Participating Fund include investment, management, distribution, tax and other expenses. The Total Expense Ratio is the proportion of total expenses incurred by the Participating Fund to the assets of the Participating Fund. The level of expenses incurred may affect the bonuses or dividends you may receive.

WHAT IS THE TOTAL EXPENSE RATIO OF THE PARTICIPATING FUND OVER THE LAST FEW YEARS?

The historical expense ratios of the Participating Fund are shown below:

	2022	2023	2024	Averaged over the last 3 years	Averaged over the last 5 years	Averaged over the last 10 years
Total Expense Ratio	1.2%	1.3%	1.2%	1.3%	1.3%	1.5%

Please note that historical expense ratios may not be indicative of future expense ratios.

HOW MUCH WILL YOU NEED TO PAY FOR ADVICE?

The total distribution cost of this product is the amount that you will pay for advice and for other distribution related expenses. It includes cash payments in the form of commissions and benefits paid to the financial advisory firm and its representative(s) who have provided you with financial advice. This is not an additional cost to you as it has been included in the premiums payable for this plan.

The Total Distribution Cost for this plan is \$681,597 as shown in the Policy Illustration. This makes up 13.4% of the total premiums payable.

WHAT HAPPENS IF YOU SURRENDER YOUR POLICY EARLY?

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

OTHER IMPORTANT INFORMATION

After purchasing a life insurance policy, you have a 14-day free-look period starting from the day you receive your policy documents to review the documents carefully. During this time, if you choose to cancel your policy, the insurer will refund you the premiums you have paid, less any medical fees and other expenses, such as payments for medical check-ups and medical reports, incurred by the insurer.

compareFIRST is an online portal that enables you to easily compare the premiums and features of life insurance products available to the retail market in Singapore. compareFIRST empowers you to make informed decisions when purchasing life insurance products. You can access the portal at www.comparefirst.sg before making a life insurance purchase. You can also find out more about life insurance products at www.moneysense.gov.sg.

Additional Accidental Death Benefit				2,000,000.00	37
<u>Single</u>					
Total Premium		\$5,090,345.30			

[#] The coverage amount shown is based on coverage at policy inception.

Introduction

This Policy Illustration is valid in Singapore and any other jurisdiction where it is not prohibited.

AIA Singapore Private Limited (AIA Singapore) believes that it is important that you fully appreciate the benefits of your policy. You should also understand how the cost of your insurance cover and the expenses of administration and sales affect the benefits that you will receive.

The illustration that follows shows how the value of your policy progresses over time and the sum(s) that would be payable. The methods used to derive the values shown follow guidelines established by the Life Insurance Association, Singapore, to ensure that a fair and consistent approach is used in preparing this illustration.

Please note that your policy provides a combination of (1) guaranteed benefits and (2) non-guaranteed benefits in the form of bonuses / cash dividends. The bonus rates / dividend scales used in this illustration are not guaranteed and may vary according to the performance of the Participating Fund.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

If you need clarification, please do not hesitate to ask your AIA Financial Services Consultant / Insurance Representative.

DEATH BENEFIT

AIA Platinum Heritage Wealth (II) comprises of AIA Platinum Heritage Wealth (II) Accumulator (WR0R) and AIA Platinum Heritage Wealth (II) Assurance (LU0R).

* The Guaranteed Minimum Death Benefit

(a) before the Policy Anniversary on or immediately following the 85th birthday of the Insured is at least US\$18,500,000; and

(b) after the Policy Anniversary immediately following the 85th birthday of the Insured is at least US\$7,307,500.

If the Insured dies due to accident before the Policy Anniversary on or immediately following the 85th birthday, additional 25% of the Guaranteed Minimum Death Benefit will be payable. The Accidental Death Benefit is subject to maximum US\$2,000,000 (aggregate with other Platinum Heritage Wealth (II) issued on same life).

AIA Platinum Heritage Wealth (II) Accumulator is designed for wealth accumulation and provides insurance protection up to age 100. The non-guaranteed bonuses is calculated based on Insured Amount for AIA Platinum Heritage Wealth (II) Accumulator of US\$7,307,500.

AIA Platinum Heritage Wealth (II) Assurance is designed to provide maximum insurance protection at inception with decreasing Insured Amount throughout the term till Insured's age 85. The Insured Amount for AIA Platinum Heritage Wealth (II) Assurance is the difference between Total Death Benefit and Insured Amount of AIA Platinum Heritage Wealth (II) Accumulator plus non-guaranteed bonuses illustrated at 4.75% Investment Return. This insured amount is not affected by actual bonus declared.

^The total death benefit is the higher of

(i) Guaranteed Minimum Death Benefit; or

(ii) the sum of Insured Amount for AIA Platinum Heritage Wealth (II) Accumulator, AIA Platinum Heritage Wealth (II) Assurance (if any) and non-guaranteed bonuses.

The actual death benefit payable will be the higher of total death benefit or total surrender value, less any indebtedness.

What is the significance of the Illustrated Investment Rate of Return?

The illustrations have been prepared on two assumptions regarding the investment rate of return achieved by the investments of the Participating Fund. The two rates 4.75% p.a. and 3.25% p.a., are purely illustrative and do not represent upper and lower limits on the investment performance of the Participating Fund. The two rates shown are net of any investment expenses.

Changes in the economic and investment environment may affect the investment performance of the Participating Fund and the benefits that you may receive. Please note that investment performance is not the only factor that will affect the benefits that you will receive. Other factors such as the actual level of death claims, disability claims, expenses incurred and other terminations on the Participating Fund will also have a bearing on the benefits that you will receive.

As the bonus rates (or cash dividends) used for the benefits illustrated above are not guaranteed, the actual benefits payable may vary according to the future experience of the Participating Fund.

What is the Illustrated Yield upon Surrender?

The Illustrated Yields upon Surrender represent the annualised investment return you may receive upon the surrender of the policy at the age of 88, net of the cost of insurance and the expenses incurred, based on the Illustrated Investment Rates of Return of the Participating Fund at 4.75% and 3.25%.

The Illustrated Yields are not guaranteed and do not represent upper and lower limits on the yield you could receive on this Participating policy.

As the bonus rates (or cash dividends) used for the benefits illustrated above are not guaranteed, the actual benefits payable may vary according to the future experience of the Participating Fund. Every year, you will be informed of the actual bonus rates or cash dividends (if any) of your Participating policy for that year. You can refer to the Product Summary for more information on the illustrated bonus rates for this product. You can also refer to Your Guide to Participating Policies to find out how bonus is determined.

Please note that the guaranteed benefit you receive upon the surrender of the policy at the age of 88 may be less than the total premiums paid.

What is the impact of deductions on what you might get back?

The following table illustrates the effect that deductions will have on the amount you get back on surrender or maturity. It also highlights the cost of surrendering the policy early.

TABLE OF DEDUCTIONS

End of Policy Year / Age	Total Premiums Paid To-date (\$)	DEDUCTIONS					
		Illustrated at 3.25% Investment Return			Illustrated at 4.75% Investment Return

1. "Value of Premiums Paid To-date" is obtained by accumulating the premiums paid to-date at the Illustrated Investment Rate of Return, assuming that you were able to invest all of your premiums without deduction for the cost of insurance and without incurring any expenses.
2. The difference between the "Value of Premiums Paid To-date" and "Total Surrender Value" represents the "Effect of Deductions To-date". This is the accumulated value of the deductions for the cost of insurance, distribution cost, expenses, surrender charge, expected tax payments, and expected transfers to shareholders (for participating policies).

How much are you paying for distribution costs?

This table shows the total costs of distribution that AIA Singapore expects to incur in relation to your policy, including the cost of any financial advice provided to you.

TOTAL DISTRIBUTION COST		
End of Policy Year / Age	Total Premiums Paid To-date (\$)	Total Distribution Cost To-date (\$)
1/49	5,090,345	681,597
2/50	5,090,345	681,597
3/51	5,090,345	681,597
4/52	5,090,345	681,597
5/53	5,090,345	681,597
6/54	5,090,345	681,597
7/55	5,090,345	681,597
8/56	5,090,345	681,597
9/57	5,090,345	681,597
10/58	5,090,345	681,597
15/63	5,090,345	681,597
20/68	5,090,345	681,597
25/73	5,090,345	681,597
30/78	5,090,345	681,597
35/83	5,090,345	681,597
40/88	5,090,345	681,597

What does the last column represent?

1. The Total Distribution Cost To-Date is the sum of each year's expected distribution-related costs, without interest. Such costs include cash payments in the form of commission, costs of benefits and services paid to the distribution channel.
2. Please note that the Total Distribution Cost is not an additional cost to you; it has already been allowed for in calculating your premium.
3. You can obtain the Total Distribution Cost of each of the supplementary benefits (if applicable) from your Financial Adviser or AIA Financial Services Consultant / Insurance Representative.
