This Cover Page is an important document.

- It highlights the key features and risks of this product and should be read together with the Policy Illustration, Product Summary and Bundled Product Disclosure Document, where applicable.
- It is important to read the Policy Illustration, Product Summary and Bundled Product Disclosure Document, where applicable, before deciding whether to purchase this product. If you do not have a copy of these documents, please contact us at +65 6880 4888 or your Financial Advisor Representative to ask for them.
- You should not purchase this product if you do not understand or are not comfortable with the risks of this product.

Jade Ultra Legacy Universal Life

Product Type	Universal Life Plan
Premium Term	Single Premium
Policy Term	Whole Life
Current General Crediting Rate	4.75% p.a.
Guaranteed Minimum Crediting Rate	4.75% p.a. for first 3 Year(s) 1.60% p.a. for the subsequent years
Name of Insurer	HSBC Life (Singapore) Pte. Ltd.
Policy Currency	USD

WHAT ARE YOU PURCHASING?

This is a non-participating single premium universal life plan. It is a product which offers you insurance coverage and also invests part of your premiums in the insurer's Non-participating Fund. It comprises guaranteed and non-guaranteed benefits and may not be suitable for you if you want all benefits to be guaranteed.

WHAT ARE THE KEY RISKS OF A UNIVERSAL LIFE PLAN?

By purchasing a universal life plan, your premiums will be pooled together and invested with premiums from other policyholders in the Non-participating Fund managed by HSBC Global Asset Management (Singapore) Limited. As a policyholder, the key risks commonly associated with universal life plan are:

Investment Risk	Lower than expected investment returns earned by the fund.
Insurance Risks	Higher than expected claims made by policyholders (e.g. due to death or other termination).
Expense Risks	Higher than expected expenses incurred for managing the Non-participating Fund.
Currency Risk	If your home currency is not denominated in the USD, the payments you make or receive may be worth less over time when expressed in your home currency.

Representative: HABC
Signature: _____

These risks can affect the general crediting rate to be declared to and the charges to be deducted from the policy, which in turn affect the account value.

Your policy will lapse if the account value is insufficient to pay for the charges. In order to keep your policy in force, you may need to pay additional premium(s).

ARE THE UNIVERSAL LIFE ILLUSTRATED CREDITING RATE GUARANTEED?

The Policy Illustration shows two crediting rates – current general and guaranteed minimum crediting rate. Current general crediting rate is not guaranteed and may increase or decrease, subject to the guaranteed minimum crediting rate as a minimum floor. The guaranteed minimum crediting rate is guaranteed by the company.

ARE THE UNIVERSAL LIFE ILLUSTRATED CHARGES GUARANTEED?

The Policy Illustration shows two charges – current and maximum charges. Some charges may increase or decrease. Should the charges be increased from their current level, a larger deduction will be made and this will impact the account value of your policy. We may adjust the charges according to factors such as the expected future claims and expenses. However, the charges will never exceed the maximum level stated in your policy contract.

You may refer to the product summary for the details of the current and maximum charges for the policy.

WHAT RETURNS CAN YOU EXPECT FROM THIS POLICY BASED ON THE ILLUSTRATED CREDITING RATES AND CHARGES?

Based on the current general crediting rate of 4.75% p.a. and current charges, your total Illustrated Yield upon surrender at age 86 is 3.03% p.a.

Based on the guaranteed minimum crediting rate of 1.60% p.a. and maximum charges, the policy is projected to have lapsed before age 86.

Prepared For

Applicant: Client
Signature: _____

Representative: HABC
Signature: _____

The total Illustrated Yields upon surrender have/have not taken into consideration of any additional premiums paid, partial withdrawals made and loans taken. Please refer to the Policy Illustration for assumptions made. The actual benefits payable (if any) and coverage are not guaranteed and are dependent on the actual general crediting rates (subject to the guaranteed minimum crediting rate) and charges (subject to the maximum charges) as well as the amounts of any additional premiums paid, partial withdrawals made and loans taken.

Depending upon actual experience, you may need to make additional premiums payment to keep the policy in force.

You can compare 3.03% p.a. total Illustrated Yield upon surrender at age 86 with the returns of Singapore Savings Bonds and Singapore Government Securities. You may refer to <https://www.mas.gov.sg/bonds-and-bills> for more information on the returns of Singapore Savings Bonds and Singapore Government Securities. Please note that the total Illustrated Yield upon surrender at age 86 take into account the cost of insurance and expenses incurred.

HOW MUCH WILL YOU NEED TO PAY FOR ADVICE?

The total distribution cost of this product is the amount that you will pay for advice and for other distribution related expenses. It includes cash payments in the form of commissions and benefits paid to the financial advisory firm and its representative(s) who have provided you with financial advice. This is not an additional cost to you as it has been included in the premiums payable for this plan.

The Total Distribution Cost for this plan is \$272,480 as shown in the Policy Illustration. This makes up 13.43% of the total premiums payable.

WHAT HAPPENS IF YOU SURRENDER YOUR POLICY EARLY?

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

OTHER IMPORTANT INFORMATION

After purchasing a life insurance policy, you have 14-day free-look period - starting from the day you receive your policy documents to review the documents carefully. During this time, if you choose to cancel your policy, the insurer will refund you the premiums you have paid, less any medical fees and other expenses, such as payments for medical check-ups and medical reports, incurred by the insurer.

(Reg. No. 199903512M)
Jade Ultra Legacy Universal Life

Introduction

HSBC Life (Singapore) Pte. Ltd. believes that it is important that you fully appreciate the benefits of your policy. You should also understand how the cost of your insurance cover and the expenses of administration and sales affect the benefits that you will receive.

The illustration that follows shows how the value of your policy progresses over time and the sum(s) that would be payable. The methods used to derive the values shown follow guidelines established by the Life Insurance Association, Singapore, to ensure that a fair and consistent approach is used in preparing this illustration.

Please note that your policy illustration provides two sets of illustrated values.

(1) Illustrated values at the guaranteed crediting rate and maximum charges

The crediting rate used in this illustration is a guaranteed minimum that cannot be lowered any further and charges are the maximum chargeable that cannot be increased any further.

(2) Illustrated values at the current crediting rate and charges

The crediting rate used in this illustration, which does not exceed the rate supportable by the underlying asset portfolio, is not guaranteed and may be varied at the company's discretion, subject to the guaranteed minimum. Charges are not guaranteed and may be increased in the future up to the maximum limits. The crediting rate and charges used are the rate and charges prevailing at the date of this illustration.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

If you need clarification please do not hesitate to ask your financial adviser.

IMPORTANT NOTES

This is not a contract of assurance. The precise benefits, terms and conditions will be provided in the policy contract.

The figures shown in the illustration and the actual value (premium and benefit amount) shown in the Policy Contract/Schedule may differ due to rounding difference. In the event of inconsistency, the amount shown in the Policy Contract/Schedule shall prevail.

We will deduct outstanding premium and any amount owing from the benefits payable.

IMPORTANT: THIS IS A MAIN ILLUSTRATION WHICH SUMMARISES THE BENEFITS OF YOUR POLICY AND IN NO WAY AFFECTS THE TERMS AND CONDITIONS STATED IN THE POLICY DOCUMENT.

It is intended to illustrate the Account Values, Cash Values and Death Benefits under different bases. It is important for you to understand that the actual figures, values and benefits may be more or less favourable depending on the actual charges and crediting rates applied to your policy as compared to the charges and rates illustrated in this document. The Account Value shown have not taken into account any positive or negative Currency Switch Charge which may be applied in the event of a currency transfer occurring at any time. For detailed terms and conditions and the applicable charges, you should refer to the policy document (including the policy schedule and endorsements) and consult your licensed intermediary. The Illustrated General Crediting Rates used in this document are illustrative purpose only. They are neither guaranteed nor based on past performance.

40	86	2,028,171	0	0	2,028,171	0	6,690,496	0	6,690,496

Please note that the Day 1 Cash Value for this policy is illustrated to be USD 1,618,393.

Based on the current general crediting rate of 4.75% p.a. and current charges, your total Illustrated Yield upon surrender at age 86 is 3.03% p.a.

Based on the guaranteed minimum crediting rate of 1.60% p.a. and maximum charges, the policy is projected to have lapsed before age 86.

What is the significance of the Illustrated Investment Rate of Return?

The illustrations have been prepared on two sets of assumptions regarding the crediting rate and charges applicable to the policy:

- (1) The illustrated values at the guaranteed crediting rate of 1.60% p.a. and maximum charges represent the lower benefit limits of the policy.
- (2) The illustrated values at the current crediting rate of 4.75% p.a. and charges are based on rates and charges prevailing at the date of this illustration.

The actual crediting rate applicable to your policy may be different to those shown in the illustrations, which are used purely for illustrative purposes.

The actual rates may be higher or lower depending on future investment performance.

The actual benefits payable (if any) and coverage are not guaranteed and are dependent on the actual crediting rates (subject to the guaranteed crediting rate) and charges (subject to the maximum charges) as well as the amounts of any additional premiums, partials withdrawals made and loans taken.

Depending upon actual experience, you may need to make additional premiums payment to keep the policy in force.

What is the Illustrated Yield upon Surrender?

The total Illustrated Yields upon Surrender represent the annualised investment return you may receive upon the surrender of the policy at the age of 86, net of the cost of insurance and charges, based on the Illustrated Crediting Rates and Charges.

The total Illustrated Yields upon Surrender based on current crediting rate and current charges is not guaranteed and do not represent the upper and lower limits on the yield you could receive on this policy.

The total Illustrated Yields upon Surrender have/have not taken into consideration any additional premiums paid, partial withdrawals made and loans taken. The actual benefits payable (if any) and coverage are not guaranteed and are dependent on the actual crediting rates (subject to the guaranteed minimum crediting rate) and actual charges (subject to the maximum charges) as well as the amounts of any additional premiums paid, partial withdrawals made and loans taken. Please note that the guaranteed benefit you receive upon the surrender of the policy may be less than the total premiums paid.

What is the impact of deductions on what you might get back?

The following table illustrates the effect that deductions will have on the amount you get back on surrender or maturity. It also highlights the cost of surrendering the policy early.

Table of deductions

			DEDUCTIONS					
			Illustrated at guaranteed minimum crediting rate (1.60% p.a.) and maximum rates of charges apply			Illustrated at current general crediting rate (4.75% p.a.) and current rates of charges apply

35	81	2,028,171	3,874,051	3,874,051	0	10,291,902	4,438,920	5,852,982
40	86	2,028,171	4,194,052	4,194,052	0	12,979,735	6,289,238	6,690,496

What do the columns in the table of deductions mean?

- (1) "Value of Premiums Paid To-Date" is obtained by accumulating the premiums paid to date at the Illustrated Investment Rate of Return, assuming the premiums paid can be invested without deduction for the cost of insurance and without any expenses.
- (2) The difference between the "Value of Premiums Paid To-date" and "Non-guaranteed Cash Value" represents the "Effect of Deductions To-date". This is the accumulated value of the deductions for the distribution costs, expenses, mortality and morbidity costs, surrender penalty, expected transfers to shareholders and expected tax payments.

How much are you paying for distribution costs?

This table shows the total costs of distribution that HSBC Life (Singapore) Pte. Ltd. expects to incur in relation to your policy, including the cost of any financial advice provided to you.

Total distribution cost

End of Policy Year	Attained Age	Total Premiums Paid To-date	Total Distribution Cost To-date
1	47	2,028,171	272,480
2	48	2,028,171	272,480
3	49	2,028,171	272,480
4	50	2,028,171	272,480
5	51	2,028,171	272,480
6	52	2,028,171	272,480
7	53	2,028,171	272,480
8	54	2,028,171	272,480
9	55	2,028,171	272,480
10	56	2,028,171	272,480
15	61	2,028,171	272,480
20	66	2,028,171	272,480
25	71	2,028,171	272,480
30	76	2,028,171	272,480
35	81	2,028,171	272,480
40	86	2,028,171	272,480

What does the last column represent?

- (1) The Total Distribution Cost To-date is the sum of each year's expected distribution-related costs, without interest. Such costs include cash payments in the form of commission, costs of benefits and services paid to the distribution channel.
- (2) Please note that the Total Distribution Cost is not an additional cost to you; it has already been allowed for in calculating your premium.
- (3) You can obtain the Total Distribution Cost of each of the supplementary benefits (if applicable) from your financial adviser or its representatives.

Explanatory Notes

Scope of the Illustration:

- (i) This document is only a summary illustration of the main benefits of your policy. You should consult your Authorised Intermediary/ Representative or HSBC Life (Singapore) Pte. Ltd. for more information.
- (ii) The terms and rates actually applied to your policy, e.g. interest rate for the Guaranteed Interest Rate Lock period, may be different from those illustrated here. They will be determined based on the prevailing terms and rates on the date HSBC Life issues your policy.

Illustration Assumptions:

- (iii) The illustration assumes that Scheduled Premiums are paid in full.
- (iv) All crediting rates in this illustration are annual effective rates applied on a monthly basis. The actual crediting rates will be applied on a daily basis.
- (v) In the illustration, all interest payments are credited to the Account Value after the Policy Premium Charge, the Policy Expense Charge and the Insurance Charge have been deducted. For details of the charges, please refer to the premium and charges provisions in the policy terms and conditions.
- (vi) The assumed interest rate for the Guaranteed Interest Rate Lock period of 4.75% p.a. only applies to the Account Value derived from the first premium paid into the policy net of any applicable charges. The rate is valid as at the Print Date of this illustration, and may be different from the final rate applicable when policy is issued.
- (vii) The Guaranteed Minimum Crediting Rate is the minimum rate of interest which applies to the Account Value throughout the policy term.
- (viii) The Illustrated General Crediting Rate is the assumed rate of interest credited to the Account Value upon expiry of any Guaranteed Interest Rate Lock period; and to the Account Value in relation to all premiums paid into the policy subsequent to first premium. The assumed Illustrated General Crediting Rate is NOT guaranteed and may be different from the current rate. The actual General Crediting Rates periodically declared by the Company may be higher or lower.
- (ix) The maximum charges, which represents 125% of the current scale of insurance charges and 120% of the current scale of the policy expense charges, as set out in the policy terms and conditions, are used in the illustration under the Guaranteed Basis while current charges are used under the Illustrated (Non-Guaranteed) Basis. The rates of charges used in this illustration are assumed to remain unchanged throughout the policy term.
- (x) The Death Benefit column does not include the Charitable Giving Benefit which is 1.00% of the policy sum insured subject to a maximum of USD 100,000 (or its equivalent in the Policy Currency). This benefit will be donated to a qualified charity designated by you.
- (xi) The policy includes an Accelerated Death Benefit which pays a one-time accelerated benefit of up to 100% of the policy sum insured up to a maximum of USD 2,000,000 (or its equivalent in the Policy Currency) if the Life Insured is diagnosed with a terminal illness.
- (xii) The Account Value and Cash Value have included the Loyalty Bonus benefit payable from the end of Policy Year 10, 15 and 20.
- (xiii) Illustrated values in this illustration have been rounded to nearest dollar.

Withdrawal Benefits:

- (xiv) A partial surrender could cause a reduction in the Sum Insured and is subject to a minimum balance Sum Insured of USD 750,000 (or its equivalent in the Policy Currency) and a Cash Value of USD 5,000 (or its equivalent in the Policy Currency); if these minimum quanta are not met upon partial surrender, the illustration will assume that a full surrender has been opted. The amount of surrender available at any time is limited to, and based upon, the Cash Value at that time. For more details, please refer to the surrender provisions in the policy terms and conditions.
- (xv) Where a partial surrender is made, the General Crediting Rate portion of the Account Value will be withdrawn before the Guaranteed Interest Rate Lock portion of the Account Value. Any applicable Guaranteed Interest Rate Lock benefit will continue for the remainder of the guaranteed period.

17th+	0	0	17th+	0.0 %

The Surrender Charge amount is determined according to Surrender Charge Percentage and Illustrated Account Values.

4. Table of Monthly Cost of Insurance Rates per \$1,000 of Sum at Risk (Current Rates of Charges)

The below rates include any adjustment in accordance with any extra rating, if applicable, to this case of illustration.

Age	Rate	Age	Rate	Age	Rate	Age	Rate
18	-	39	-	60	0.377	81	2.225
19	-	40	-	61	0.417	82	2.470
20	-	41	-	62	0.462	83	2.744
21	-	42	-	63	0.510	84	3.046
22	-	43	-	64	0.562	85	3.381
23	-	44	-	65	0.618	86	3.754
24	-	45	-	66	0.680	87	4.166
25	-	46	0.131	67	0.747	88	4.624
26	-	47	0.141	68	0.824	89	5.131
27	-	48	0.146	69	0.876	90	5.692
28	-	49	0.153	70	0.844	91	6.068
29	-	50	0.155	71	0.900	92	6.449
30	-	51	0.162	72	0.972	93	6.832
31	-	52	0.169	73	1.072	94	7.214
32	-	53	0.186	74	1.206	95	7.587
33	-	54	0.206	75	1.353	96	7.945
34	-	55	0.227	76	1.467	97	8.276
35	-	56	0.251	77	1.589	98	8.571
36	-	57	0.278	78	1.719	99	8.815
37	-	58	0.307	79	1.858	100	8.921
38	-	59	0.341	80	2.003	101	9.247

Note: The illustrated values in Table of Monthly Cost of Insurance have been rounded to three decimal places.

5. Administrative charges: Administrative charges may be applied in the event of a currency transfer or a change of life insured.

Lock period (Apply to the First Premium Only): 4.75%
Benefit Type: The Higher of Account Value
or Sum Insured

APPENDIX II - Illustration Glossary

"Planned Premium" means Single Premium or Annual Premium you intend to pay under this policy;

"Unscheduled Premium" means premium in addition to the Planned Premium. No premium would be accepted after the Policy Anniversary date immediately preceding the date the Life Insured attains age 100. The minimum amount of such Unscheduled Premium will be determined by the Company from time to time. The Company reserves the right to refuse, reduce or limit the number or amount of such unscheduled premiums in any Policy Year except as required to keep this policy in force;

"Partial Surrender" shows the input of net amount withdrawn from the policy, after deduction of any surrender charges at the end of the policy year; It is limited by and is subject to the conditions stated in the Explanatory Notes (xiv), (xv);

"Account Value" means the accumulation of premiums paid, with interest added less any Charges, any partial surrender amounts and the applicable surrender charges made in accordance with the terms and conditions of this policy;

"Cash Value" refers to the net Account Value of the policy at any time, after deduction of any surrender charges. This is the illustrated amount you may receive if you fully surrender the policy at a given time;

"Death Benefit" refers to the payment arising under this policy in the event of the death of the Life Insured when the policy is inforce. Any surrenders or policy loans taken prior to the insured event could reduce the Death Benefit;

"Guaranteed Interest Rate Lock" refers to the offer of guaranteed new money crediting rate attributable to your first premium payment for the number of years of guarantee you selected at Date of Issue. The illustrated offer is subject to prevailing terms and rates at the time the first premium is received, in accordance to the Company's official record;

"Currency Switch Charge" may be in the form of a positive or negative adjustment to the Account Value and is determined by various factors including but not limited to the investment market conditions.

"Loyalty Bonus" refers to the bonus payable to the Policyowner at the end of the 10th, 15th and 20th Policy Year while the Policy is in-force. Refer to Product Summary for details of Loyalty Bonus.

"Policy Premium Charge" is the deduction applied to all premiums paid to and in respect of the Policy before such premium is allocated to the Account Value;

"Policy Expense Charge" is the deduction from the Account Value on the Policy Effective Date and thereafter on each Monthly Anniversary Date during the first 18 years under this policy. This charge is non-guaranteed and may be changed at any time but is subject to not more than 120% of the amount determined at the time of policy issue;

"Insurance Charge" is the charge for cost of insurance that will be applied on the Sum at Risk on the Policy Effective Date and thereafter on each Monthly Anniversary Date throughout the policy term to provide the Death Benefit. The Sum at Risk is the amount by which the Sum Insured exceeds the Account Value and if this is zero or less, then no insurance charge applies. The rate of Insurance Charge will be determined based on the prevailing mortality risk rates according to the Life Insured's age at the relevant Monthly Anniversary Date, sex, country of residence and underwriting class of the Life Insured. This charge is non-guaranteed and may be changed at any time but is subject to not more than 125% of the amount determined at the time of policy issue;

"Total Distribution Cost" is the sum of each year's expected distribution related costs, without interest. These costs include cash payments in the form of commission, costs of benefits and services paid to the distribution channel. The Total Distribution Cost is not an additional cost to you; it has already been allowed for in calculating your premium.

Note: The illustration glossary is designed to help with the understanding of this illustration document. The terms and definitions actually applied to your policy will be determined based on the prevailing terms and definitions on the date the Company issues your policy.

Jade Legacy Universal Life and Jade Ultra Legacy Universal Life Product Summary

Details of Product Provider

HSBC Life (Singapore) Pte. Ltd. ("HSBC", "We", "Our", "Us") (Reg. No. 199903512M) is the product provider and underwriter for this product. This product is distributed through HSBC's representatives or appointed distributors only.

Important Notes

This document isn't a legal contract and only covers the main product features. The content of this document may vary from the terms of the Policy General Provisions finally issued to you. Only terms in your Policy General Provisions are binding between us. Please refer to the Policy General Provisions for full contractual provisions and definitions of capitalized terms used in this document. If your Policy General Provisions says something different to this summary, then we'll follow what the Policy General Provisions says. A sample of the Policy General Provisions is available upon request. You can ask our representatives or appointed distributors for more details.

In this Product Summary, reference to "Age" means the Life Insured's age last birthday.

As buying a life insurance policy is a long-term commitment, an early termination of the Policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

Please refer to the Policy Illustration which illustrates the surrender value you may receive in different Policy Years if you intend to surrender your Policy.

You should carefully examine the features of this product, particularly the surrender provisions and your investment objectives or expectations, with your financial advisor before deciding to invest. You should read this Product Summary with the portfolio factsheet (which identifies underlying assets, crediting rate and investment philosophy).

Any untrue, inaccurate or incomplete Application information may void the Policy. If this happens, it will be void from the Issue Date. We can change or revoke the Policy; or adjust the Benefits.

We can do this at our sole and absolute discretion. If the Policy is void or revoked, we'll:

- ♦ Refund your Premiums without interest; and
- ♦ Deduct any medical and underwriting expenses we've incurred in accepting your Application.

Nature and Objective of the Product

Jade Legacy Universal Life and Jade Ultra Legacy Universal Life are whole life non-participating universal life insurance products. These products don't participate in the profits of any insurance fund. We pool the assets supporting Jade Universal Life products in the Jade Universal Life Underlying Portfolios. We'll call these the Jade Portfolio.

Both products are available in USD, AUD and GBP. A minimum Sum Insured amount for each of these currencies applies. We may suspend the choice of policy currencies. We manage each policy currency under a separate portfolio of assets. We denominate the assets underlying each policy to that of the policy currency.

Read this product summary with:

- ◆ The portfolio factsheet (which identifies underlying assets, crediting rate and investment philosophy); and
- ◆ The Policy Illustration.

Benefits under the Product

1. Death Benefit

We'll pay you the Death Benefit when the Life Insured dies. We'll only do this while the Policy is in force.

The Death Benefit is the higher of the Sum Insured and the Account Value.

2. Accelerated Death Benefit

We'll pay you the Accelerated Death Benefit when the Life Insured is diagnosed as suffering from Terminal Illness. We'll only do this while the Policy is in force. The Accelerated Death Benefit is an advancement on the Death Benefit.

The Accelerated Death Benefit limit of USD 2,000,000 (or its equivalent in the Policy Currency) per individual applies to the Accelerated Death Benefit. We'll pay you the Accelerated Death Benefit as follows:

Does the Accelerated Death Benefit advance the Death Benefit in full?	We'll pay	Policy status after payment
Yes	Accelerated Death Benefit	Terminated
No, due to the USD 2,000,000 (or its equivalent in the Policy Currency) limit per individual	Accelerated Death Benefit up to the USD 2,000,000 (or its equivalent in the Policy Currency) limit per individual	In force

If the Account Value is zero or less after such deduction:

- ◆ The Policy remains in force for 12 months after payment of the Accelerated Death Benefit;
- ◆ We'll pay any remaining Death Benefit if the Life Insured dies; and
- ◆ Your Policy will terminate after the expiry of that 12-month period. When this happens, we'll pay the Policyowner the remaining Sum Insured. We'll deduct all Charges from the Sum Insured before we make payment.

We'll only pay the Accelerated Death Benefit once. We don't have to pay you the Accelerated Death Benefit if:

- ◆ We've already paid a claim for the Accelerated Death Benefit;
- ◆ We've paid the amount equivalent to the USD 2,000,000 (or its equivalent in the Policy Currency) limit per individual; or
- ◆ Your Policy has been terminated.

Terminal Illness means "any condition caused by illness or injury, where at the time of claim, despite all reasonable medical treatment, the Life Insured is expected to live for no more than 12 months." The specialist medical practitioner treating the condition must provide supporting evidence of the condition, possible medical treatment, the prognosis after undergoing the possible medical treatment, and certify that the Life Insured is expected to live for no more than 12 months despite all possible medical intervention. We reserve the right to appoint an independent medical specialist who is an expert in the condition to confirm the diagnosis and prognosis. Terminal Illness in the presence of Human Immunodeficiency Virus (HIV) infection is excluded.

3. Charitable Giving Benefit

On the death of the Life Insured, we'll pay an additional 1% of the Sum Insured, up to a maximum payment of USD100,000 (or its equivalent in the Policy Currency), to the charity or charities you've chosen.

A charity for this purpose must be a bona fide internationally recognised and accredited charitable body or foundation.

4. Loyalty Bonus

The Loyalty Bonus is only applicable to Jade Ultra Legacy Universal Life.

We'll pay the Loyalty Bonus according to the figures shown below:

End of Policy Year	Loyalty Bonus Rate (% of prevailing Account Value)
10	0.5%
15	1.0%
20	1.5%

We'll only pay the Loyalty Bonus while the Policy is in force.

5. Change of Life Insured

You can ask us to change the Life Insured. You'll need to use the prescribed application form(s) and follow the below:

Policyowner	Conditions of Request
Corporation	You must: ◆ Inform us in writing if the original is no longer employed with the Policyowner. This includes any associated corporation or connected business entity. ◆ Apply to us to change the Life Insured. If such a request is accepted by us, we may impose an administrative charge as we shall set which will be deducted from the Account Value.
Individual	You may ask us to change the Life Insured to another Life Insured. You may make up to: ◆ 1 change of Life Insured during the Policy term if your policy is a Jade Legacy Universal Life policy; or ◆ 2 changes during the Policy term if your policy is a Jade Ultra Legacy Universal Life policy.

We can decide if we'll accept any replacement life insured. It's our decision alone. It will depend on:

- ◆ You showing satisfactory proof that you or the business organisation or corporation has insurable interest on the new life insured;
- ◆ You fulfill any terms and conditions we ask you to; and
- ◆ The new life insured meets our prevailing underwriting requirements.

You cannot change the Life Insured if we've paid the Accelerated Death Benefit.

If we accept your proposed change in Life Insured:

- ◆ The Insurance Charge and Policy Expense Charge will be adjusted to reflect the new life insured's:
 - ◆ Age.
 - ◆ Gender.
 - ◆ Country of residence.
 - ◆ Underwriting class.
 - ◆ Any additional ratings.
- ◆ Time periods will restart. We'll restart these from the date of the change.
- ◆ Any No-Lapse Guarantee Benefit will terminate.

Once the change in Life Insured becomes effective:

- ◆ You'll receive an Endorsement with the new life insured's particulars; and
- ◆ The cover for the original Life Insured ends. The new life insured's cover starts on the new issue date. You can find this in the Endorsement. All rights in connection with the original Life Insured are immediately terminated.

In accepting the new life insured, we can impose an adjustment cost. This shall be determined and deducted from the Account Value. We'll reflect the adjustment cost amount in your statement.

We can't always substitute a Life Insured under your Policy. This could be because of applicable laws or regulations. There might also be other practical constraints. If this happens, we'll need to issue a new policy. We'll only do this if we accept the new life insured. All benefits, privileges and values under your Policy will be terminated and transferred fully as far as this is practicable to the new policy.

Optional Benefits under the Product

No-Lapse Guarantee Benefit (if applicable)

This optional benefit only applies if stated in the Policy Schedule or in an Endorsement.

The No-Lapse Guarantee Benefit to Age 100 is available in USD. This option is only available for Single Premium policies.

We'll maintain the Sum Insured in force, at our cost, until the earlier of:

- ♦ The death of the Life Insured; and
- ♦ The expiry of the duration you've chosen in the Policy Schedule or in any subsequent Endorsement.

We'll only do this if you meet the following conditions:

- ♦ The No-Lapse Guarantee Benefit applies to your Policy.
- ♦ You've paid into the Policy at least the No-Lapse Guarantee Benefit minimum premium specified in the Policy Schedule or in any Endorsement.
- ♦ You haven't elected any surrender from the Account Value other than the Surrenderable Portion.

You may surrender a portion of the Account Value attributable to the cumulative premiums paid over and above the specified No-Lapse Guarantee Benefit minimum premium, excluding interest credited and all charges to-date, without affecting the No-Lapse Guarantee Benefit.

The No-Lapse Guarantee Benefit will cease to apply to your Policy if:

- ♦ Any part of the surrender amount is taken from any other part (excluding the Surrenderable Portion).
- ♦ Your Policy terminates due to a Policy Loan.
- ♦ The Life Insured is replaced or your Policy terminates.

You may ask us to reinstate the No-Lapse Guarantee Benefit as long as:

- ♦ We agree.
- ♦ You meet the terms and conditions we may specify at that time.

You may apply, with no evidence of insurability, to add the No-Lapse Guarantee Benefit or change the No-Lapse Guarantee Benefit to any other option available at the relevant time, provided:

- ♦ The Policy is in force.
- ♦ The Age of the Life Insured at the time of application is between 50 and 80 (inclusive).
- ♦ You haven't already used this option. This option is only available for use once.
- ♦ You agree to additional terms and conditions we may specify at that time.

You may apply to add or change the No-Lapse Guarantee Benefit on:

- ♦ The 5th Policy Anniversary;
- ♦ Each 5th subsequent Policy Anniversary; or
- ♦ Each Policy Anniversary where the age of the Life Insured is between 75 and 80 (inclusive) at the time of the application.

If you add or change a No-Lapse Guarantee Benefit:

- ♦ You'll have to pay an additional Policy Expense Charge if we ask you to.
- ♦ The Crediting Rate(s) will be changed and applied to the Account Value from the date of the addition or change.

Premiums

Planned Premiums

Planned Premiums	Policy Currency (subject to availability)		
	USD	AUD	GBP
Single Premium	✔	✔	✔
Annual Premiums	✔	✔	✔

If you've selected Annual Premiums, we will issue to you an annual billing reminder.

Unscheduled Premium

You can make additional Unscheduled Premium payments at any time. We can refuse, reduce or limit the number or amount of Unscheduled Premium payments you can make in any Policy Year. You can't make additional Unscheduled Premium payments after the Policy Anniversary falling immediately before the Life Insured turns Age 100. We'll apply your Premium(s) to the Policy Value as soon as practicable.

Crediting Rates

From time to time, we'll apply 2 interest rates to the value in your Account Value. These are:

- ◆ **A New Money Crediting Rate**

which applies to the Account Value derived from the first Premium paid into the Policy. It's guaranteed for the Guaranteed Interest Rate Lock period you've chosen.

- ◆ **A General Crediting Rate**

which applies:

- ◆ During the Guaranteed Interest Rate Lock period to the portion of the Account Value not derived from the first Premium paid into the Policy; and
- ◆ After the Guaranteed Interest Rate Lock period, to the entire Account Value.

Different New Money Crediting Rates and General Crediting Rates may apply:

- ◆ To each of the No-Lapse Guarantee Benefit options; or
- ◆ Where a change is made to the No-Lapse Guarantee Benefit.

We set the crediting rates. We base this on factors such as the Jade Portfolio investment return and future outlook. The Guaranteed Minimum Crediting Rate means the crediting rate won't fall below these amounts:

Policy Currency (subject to availability)	Guaranteed Minimum Crediting Rate
USD	2% (Jade Legacy UL) 1.6% (Jade Ultra Legacy UL)
AUD	0%
GBP	1%

Guaranteed Interest Rate Lock

The Guaranteed Interest Rate Lock periods that can be selected are:

Policy Currency (subject to availability)	Guaranteed Interest Rate Lock periods	
USD	Single Premium	Annual Premium
	1, 3 and 5 years (Jade Ultra Legacy UL)	1 year
	1 & 3 years (Jade Legacy UL)	
AUD and GBP	1 year	

The Guaranteed Interest Rate Lock guarantees the New Money Crediting Rate for the period you selected on the Issue Date. This guarantee applies irrespective of any subsequent change in the New Crediting Rate or the General Crediting Rate.

The General Crediting Rate will apply to all of the Account Value after the expiry of the Guaranteed Interest Rate Lock period.

You may choose to exit partially or fully from your Guaranteed Interest Rate Lock benefit at any time. If you choose a partial exit, the General Crediting Rate will only apply to the part of the Account Value affected by the partial exit. The remaining part of the Account Value won't change. You can't reinstate the Guaranteed Interest Rate Lock to the amount exited.

There is no additional charge for the Guaranteed Interest Rate Lock. This option is subject to availability. We may suspend the availability of this option without any prior notice to you.

Charges

The following non-refundable Charges apply to your Policy:

Policy Premium Charge	We'll deduct a Policy Premium Charge from all Premium(s) paid. We'll do this before the Premium is allocated to the Account Value. If you select the Surrender Charge Waiver benefit, the Policy Premium Charge will be 7% for all Premiums received throughout the Policy term.
Policy Expense Charge	This Policy Expense Charge will be deducted from the Account Value: ◆ On the Policy Effective Date for the first payment; and ◆ After that, on each Monthly Anniversary Date. Deductions are made for 18 years from the Policy Effective Date. The Policy Expense Charge is set by us on the Issue Date and remains level for 18 years. We can increase this Charge at any time but will send you a notification at least thirty (30) days prior to the change. The revised charge won't exceed: ◆ 125% for Jade Legacy Universal Life; or ◆ 120% Jade Ultra Legacy Universal Life, of the amount shown in the Policy Schedule. The charge is based on the Sum Insured selected, Life Insured's age, gender, No-Lapse Guarantee option selected, guaranteed minimum Crediting Rate and risk classification as at Issue Date. Any addition or change to the No-Lapse Guarantee Benefit will require payment of an additional Policy Expense Charge as we'll set from time to time, payable over 18 years from that addition or change.
Insurance Charge	A Charge for the cost of insurance will be applied on the Sum At Risk on: ◆ The Policy Effective Date; and ◆ After that, on each Monthly Anniversary Date. The Sum At Risk is the Sum Insured less the Account Value. If the Sum At Risk is zero or less then no such charge will be deducted. We'll set the rates charged based on the prevailing and relevant mortality risk rates according to the Life Insured's Age on the relevant Monthly Anniversary Date, gender, country of residence and underwriting class. We can change these rates at any time but will send you a notification at least thirty (30) days prior to the change. The revised rate won't exceed: ◆ 135% for Jade Legacy Universal Life; ◆ 125% for Jade Ultra Legacy Universal Life of the rates stated in the Policy Schedule adjusted in accordance with any extra rating shown in the Policy Schedule.

Computation of Account Value

The Account Value balance will be computed as follows:

- ◆ Each Premium is first allocated to the Account Value, which is the Premium less the Policy Premium Charge.
- ◆ Then the Policy Expense Charge and Insurance Charge are deducted from the Account Value. These charges are deducted at the Policy Effective Date and subsequently at each Monthly Anniversary Date.
- ◆ Then the Crediting Rate(s) will be credited to the Account Value on a daily basis.

Partial or Full Surrender

You may surrender the Policy partially or fully by withdrawing from the Account Value.

Full Surrender	You may ask us for a full surrender of the Account Value at any time. Before we can arrange a full surrender, you'll need to: ◆ Send us all documents and information required by us, including the return of all Policy documents. ◆ Pay a Surrender Charge which will be deducted from the Account Value.
Partial Surrender	You may also ask us for a partial surrender of your Account Value. You can do this after the first Policy Anniversary. After each partial surrender we'll reduce the following by the partial surrender amount (including Surrender Charges): ◆ The Account Value; and ◆ The Sum Insured. After the surrender, the Sum at Risk must be no greater than the Sum at Risk which applied to your Policy before the partial surrender. We'll treat any partial surrender as a request for full surrender if it would cause: ◆ The remaining Cash Value to fall below USD5,000 (or its equivalent in the Policy Currency); or ◆ The Sum Insured to fall below the minimum Sum Insured of USD750,000 (or its equivalent in the Policy Currency). You can partially surrender up to the Surrenderable Portion without affecting any applicable No-Lapse Guarantee Benefit.
How to surrender	You may surrender the Policy partially or fully by withdrawing from the Account Value. You must exit from any Guaranteed Interest Rate Lock benefit before any portion of the Account Value subject to such benefit can be surrendered. A request for partial or full surrender: ◆ Will take effect on the date we receive the surrender request in the form prescribed by us. ◆ Will only take effect if it's made in writing and if the amount to be surrendered is equal to or greater than the minimum amount set by us from time to time. ◆ May have payment of proceeds deferred for up to 90 days from the date we receive such request.

Surrender Charge	Surrender Charges for a partial or full surrender are calculated based on the total amount withdrawn from the Account Value multiplied by the associated Surrender Charge percentage (%) applicable to the relevant Policy Year, shown in the Policy Schedule, in which the request for surrender is performed.
Free Surrender	After the 10th Policy Anniversary, no Surrender Charge applies for partial surrenders of up to 5% of the prevailing Account Value in each Policy Year (Small Surrenders) where: ♦ The Sum Insured won't be reduced by the Small Surrenders and the associated Surrender Charges for the first 2 of such Small Surrenders. ♦ Any Small Surrender not taken in any Policy Year can't be carried forward to the next Policy Year.

Sample Illustration

The examples below are hypothetical and for illustrative purposes only. In actual circumstances, the Account Value may go up or down depending on the Crediting Rate and Charges.

Example 1

Partial Surrender **On or Before** 10th Policy Anniversary

You requested for a partial surrender (net of surrender charge) of USD200,000 in Policy Year 5.

At the beginning of Policy Year 5

Sum Insured: USD10,000,000

Account Value: USD4,000,000

The figures shown below are for illustrative purposes.

Partial Surrender Amount = USD200,000
= Total Withdrawal Amount from Account Value
– Surrender Charge Amount

a	Total Withdrawal Amount from Account Value	$= \text{Partial surrender amount} / (1 - \text{Surrender Charge \%})$ $= \text{USD}200,000 / (1 - 14.2\%)$ $= \text{USD}233,100$
b	Surrender Charge Amount	$= \text{Total withdrawal amount} \times \text{Surrender Charge \%}$ $= \text{USD}233,100 \times 14.2\%$ $= \text{USD}33,100$
c	Revised Account Value	$= \text{Account Value (before partial surrender)}$ $- \text{Partial surrender amount}$ $- \text{Surrender Charge amount}$ $= \text{USD}4,000,000$ $- \text{USD}200,000$ $- \text{USD}33,100$ $= \text{USD}3,766,900$
d	Revised Sum Insured	$= \text{Sum Insured (before partial surrender)}$ $- \text{Partial Surrender amount}$ $- \text{Surrender Charge amount}$ $= \text{USD}10,000,000$ $- \text{USD}200,000$ $- \text{USD}33,100$ $= \text{USD}9,766,900$

Example 2

Partial Surrender **After** 10th Policy Anniversary

You requested for the following partial surrender (net of surrender charge):

- ♦ USD200,000 in Policy Year 12;
- ♦ USD300,000 in Policy Year 13; and
- ♦ USD500,000 in Policy Year 14.

At the beginning of Policy Year 12

Sum Insured (SI): USD10,000,000

Account Value (AV): USD5,000,000

The figures shown below are for illustrative purposes.

		Policy Year		
		12	13	14
AV / SI		USD5,000,000 / USD10,000,000	USD4,800,000 / USD10,000,000	USD4,495,345 / USD9,935,345
Partial Surrender Amount		USD200,000 (4% of AV)	USD300,000 (6.3% of AV), consists of:	USD500,000 (11.1% of AV), consists of:
		First 5% of AV, not subject to Surrender Charge	i) USD240,000 (5% of AV); and ii) USD60,000 (1.3% of AV), subject to Surrender Charge	i) USD224,767 (5% of AV); and ii) USD275,233 (6.1% of AV), subject to Surrender Charge
a	Total Withdrawal Amount from	= Partial surrender amount / (1 – Surrender Charge %)		
	Account Value	No Surrender Charge, thus this is USD200,000	= USD60,000 / (1 – 7.2%) = USD64,655	= USD275,233 / (1 – 5.2%) = USD290,330
b	Surrender Charge Amount	= Total surrender amount x Surrender Charge %		
		First 5% of AV: No Surrender Charge	i) First 5% of AV: No Surrender Charge ii) Surrender Charge Amount =USD64,655 X 7.2% = USD4,655	i) First 5% of AV: No Surrender Charge ii) Surrender Charge Amount =USD290,330 x 5.2% = USD15,097
c	Revised Account Value	= Account Value (before partial surrender) – Partial surrender amount – Surrender Charge amount		
		USD5,000,000 – USD200,000 – USD0 = USD4,800,000	USD4,800,000 – USD300,000 – USD4,655 = USD4,495,345	USD4,495,345 – USD500,000 – USD15,097 = USD3,980,248
d	Revised Sum Insured	= Sum Insured (before partial surrender) – Partial surrender amount (above 5% of AV for first two surrenders) – Surrender Charge amount		
		USD10,000,000	USD10,000,000 – USD60,000 – USD4,655 = USD9,935,345	USD9,935,345 – USD500,000 – USD15,097 = USD9,420,248

We will release the requested surrender amount not later than 90 days after receiving your request.

Key Provisions

The following are some provisions found in the Policy General Provisions. This is only a brief summary and you are advised to refer to the actual terms and conditions in the Policy General Provisions. Please consult your financial advisor should you require further explanation.

Exclusions

- ◆ If the Life Insured commits suicide within 1 year from the latest of the Issue Date, Policy Effective Date and the last Reinstatement Date (if any), then the Policy becomes void from that date and we'll cancel it. We'll refund the Premium(s) you've paid without interest less any medical and underwriting expenses incurred in accepting your Application and any amount owing to us.
- ◆ If the replacement life insured commits suicide within 1 year from the latest of the new Issue Date and the last Reinstatement Date (if any), the Policy becomes void from that date and we'll cancel it. We'll refund the Premium and the additional charge (if applicable) you've paid without interest less any medical and underwriting expenses incurred in accepting your Application and any amount owing to us.
- ◆ We won't pay the Terminal Illness Benefit if the diagnosis of Terminal Illness is in the presence of Human Immunodeficiency Virus (HIV) infection.

Free-Look Period

You may cancel your Policy within 14 days of receiving it.

We'll consider it received by you within 7 days of us sending it to you or your advisor.

If you decide to cancel your Policy, you must:

- ◆ Notify us in writing; and
- ◆ Return the Policy, within the Free-Look Period.

We'll:

- ◆ Refund your Premium without interest; and
- ◆ Deduct medical and underwriting expenses we've incurred in accepting your Application.

Keeping Track of Your Policy

We'll send you statements on a quarterly basis. Your statement will show the transactions and balance in the Account Value.

Change in Sum Insured

You can write to us and ask us to consider increasing or decreasing the Sum Insured. We don't have to consent to your request. If we do agree, we can place any additional terms or conditions on this change. If you'd like to request a change, here are further details:

Request	When you can ask	Minimum amount of change	Additional obligations
Increasing the Sum Insured	Any time	USD100,000 (or its equivalent in the Policy Currency).	Ask us in writing. Give us: ♦ Evidence of insurability of the Life Insured; and ♦ Fulfilment of such terms and conditions as we may specify. We can change the minimum amount at any time. We can reject any requests given to us earlier than the period stated in the request form. You should check the request form before making a request.
Decreasing the Sum Insured	Any time after the first Policy Anniversary	USD100,000 (or its equivalent in the Policy Currency)	Ask us in writing after the first Policy Anniversary. You agree to: ♦ Keep the minimum remaining Sum Insured of USD 750,000 (or its equivalent in the Policy Currency) or such minimum Sum Insured as we decide (we can change the minimum amount at any time); and ♦ Any other additional terms and conditions we set or specify including any maximum cumulative Sum Insured reduction. You may need to pay a charge deducted from the Account Value. We'll calculate the amount of this charge on the basis of a percentage reduction in the Sum Insured amount applied to the then applicable Surrender Charge as at the date of reduction in the Sum Insured, as set by us.

Risk of Early Policy Termination

Your Policy may terminate early if:

- ◆ Your Account Value is insufficient to cover the policy charges and any indebtedness under your Policy. This can happen if actual Crediting Rates are lower than those shown in your Policy Illustration which is a projection based on prevailing Crediting Rates at the date of the Policy Illustration;
- ◆ You increase your current Sum Insured, which will result in the Insurance Charges being higher;
- ◆ You make Partial Withdrawals;
- ◆ You have taken a loan on your Policy and the total indebtedness to us under your Policy is 90% or higher of the Cash Value; or
- ◆ The Policy Expense Charge and Insurance Charge have been increased by us.

If any of these occur, you should review the funding of your Policy Benefits with the help of an Authorised Intermediary or Representative of HSBC Life (Singapore) Pte. Ltd. and consider whether you need to pay additional premiums to avoid any loss of coverage. The risk of early termination can also be avoided by selecting the No-Lapse Guarantee Benefit at the Issue Date, subject to meeting the requirements to keep this guarantee in full force.

Grace Period

The grace period for the payment of any Premium instalments on an annual basis is 45 days after the premium due date (if applicable) to this Policy.

Policy Loan

You may obtain a loan from us after the first Policy Anniversary. Your loan balance on the application date can't be greater than 75% of the prevailing Cash Value at the date of your loan application. Your loan balance includes both new and any existing loans with accrued interest.

We'll terminate the Policy if the total loan balance exceeds 90% of the Cash Value. We can do this any time. We'll pay the Benefits as if the Policy had been fully surrendered.

We'll release the requested loan as soon as we can. We'll still need to comply with our business conditions and our procedures. We'll generally make payment within 90 days of receiving a valid request.

We'll charge interest on the outstanding amount under your Policy Loan. The rate will be set by us from time to time. We'll add any unpaid interest to your Policy Loan.

You can repay the whole or part of the Policy Loan. You'll need to pay the principle together with interest. You can do this at any time. Any indebtedness will be deducted from the amounts payable under your Policy. This includes when a claim is made. Our claim for Indebtedness will have priority over others.

Other Key Risks

Credit and insolvency risks	The product is an insurance policy issued by HSBC. Your benefit is subject to the credit risk of HSBC. Your premiums paid will form part of HSBC's assets. You don't have any rights or ownership over any of those assets. Your recourse is against HSBC only.
Benefits aren't guaranteed	There's uncertainty about how much we'll pay you for the Surrender Amount and Death Benefit. This is because your entitlement to these amounts depends on your Account Value at that time. The Account Value increases with credit interest earned and decreases as policy charges are deducted. The General Crediting Interest Rate applies to each policy. It depends on: ♦ The investment returns on the underlying assets supporting the policies; and ♦ Other factors such as: the long term future investment returns outlook, claims and surrender experience and expenses. If long term investment returns are: ♦ Better than expected, the General Crediting Interest Rate would increase. ♦ Worse than expected, the General Crediting Interest Rate would reduce. Market risk factors may impact investment returns of the assets supporting the policies such as: ♦ Investment risk factors. Market risk factors may impact Investment returns of the assets supporting the policies such as interest rate risks and credit risk. Interest rate risk is where values of assets and interest earnings will be affected by the change of interest rate level and its outlook and any capital gains or losses resulted from asset disposals. Credit risk is where the risk of investment losses is due to the default or change in credit standing of counterparties, e.g. bond issuers. ♦ Claims factor. The actual experience of mortality and morbidity is uncertain, which may lead to higher than expected cost of providing mortality and living benefits. In this case, the Insurance Charge may be increased and the General Crediting Interest Rate may be reduced. ♦ Persistency factor. The actual experience of policy surrender (partial or full) and policy lapse is uncertain, and its effect on investment returns can vary depending on the size of any excess amount left behind after settling the surrender payment for the leaving policies. ♦ Expense factor. The actual amount of expenses incurred and apportioned to the group of policies may be higher than expected. In this case, the Policy Expense Charge may be increased and the General Crediting Interest Rate may be reduced. Still, the General Crediting Interest Rate is subject to a Guaranteed Minimum Crediting Interest Rate as set by HSBC on the Issue Date. HSBC may increase the rates of Policy Expense Charge and Insurance Charge. If the General Crediting Interest Rate fluctuates or Policy Expense Charge or Insurance Charge increases, there's a risk the interest generated under the policy is unable to cover the policy charges, and lead to: ♦ Cash Value upon surrender less than total premiums paid; ♦ Policy lapsation due to Cash Value becoming zero or less; or ♦ Shorter life protection period.

	We can end your policy if the total Account Value isn't enough to cover any charges. You could lose all your premiums paid and benefits accrued if any condition of ending your policy early is triggered.
Risks from the delay or missing the payment of premiums due	If you delay or miss paying your Planned Premiums (if any), then your Account Value, Death Benefit or Surrender Amount may be lower than expected. It can also lead to policy lapses and a shorter life protection period.
Loss of life protection or death benefit	This risk arises if the Cash Value drops to zero or below unless: ♦ You've elected the No-Lapse Guarantee Benefit; or ♦ If you pay annual premium payments, then you'll have a grace period for payment. This means the loss of life protection or Death Benefit will be the date of expiry of the Grace Period.
Partial or Full Surrender	You may incur a significant charge if you make a Partial or Full Surrender within the surrender charge period. Your Surrender Amount may be less than the Premium paid.
Risks from Partial Surrender	A Partial Surrender may mean the interest credited is unable to cover the policy charges. If this happens, the Partial Surrender may lead to: ♦ Reduction in Sum Insured; ♦ Policy lapsation due to Cash Value becoming zero or less; and ♦ Shorter life protection period. You may lose the No-Lapse Guarantee Benefit if the Partial Surrender amount isn't drawn from the Surrenderable Portion of the Account Value.
Risks from assigning your policy	If your policy is assigned to a lender (i.e. Assignee) as collateral: ♦ You'll be subject to interest rate risk, which may increase costs of servicing the loan and risk of default in repaying the loan. Upon repayment default or failure to repay the loan under the relevant loan agreement or other facility agreements of similar nature, the Assignee may exercise the right to surrender the policy on your behalf. You may lose the life coverage and other benefits as a result. ♦ We'll pay the Death Benefit or other benefit amount first to the Assignee (unless otherwise advised by the Assignee) and any remaining balance of Death Benefit or other benefit amount to the Policyowner or Beneficiary (as the case may be). ♦ You may also face the risk of policy information and personal data being released to the Assignee.
Inflation risk	Cost of living is likely to be higher in the future due to inflation. So, you may be paid less from the policy in real terms in the future, even if HSBC meets all contractual obligations.

Interest rate risk for Policy Loan (if any)	You'll need to pay interest for your Policy Loan at the prevailing interest rate declared by HSBC. The interest rate may go up or down. If the outstanding loan plus any unpaid interest exceeds 90% of the Cash Value, then: ♦ Your policy will be fully surrendered with benefit payable after deduction of the outstanding loan, unpaid interest and any surrender charges. ♦ Your life insurance coverage will no longer apply.
Policy currency risk	By choosing currencies other than local currency, you're subject to exchange rate risks. Exchange rates fluctuate. You may suffer a loss of your benefit values and any later premium payments may be higher than your initial premium payment as a result of the exchange rate fluctuations. Authorities may impose exchange controls which adversely affect the exchange rate.
Liquidity risk	This Policy is designed to be held for a long term period. If you have liquidity needs for any unexpected events, you may apply for Partial or Full Surrender. The amount available for surrender isn't guaranteed. It's also subject to the respective policy terms and conditions and may induce other risks.
Is there a guarantee on premium paid?	The product doesn't guarantee paying back the full amount of initial premium. You may get back less than the amount originally paid. Potential loss occurs if you surrender the policy. You may also suffer total loss (policy lapsation) if: ♦ The Cash Value falls to zero or below; and ♦ The No Lapse Guarantee Benefit does not apply. The policy would be subject to a Guaranteed Minimum Crediting Interest Rate depending on the policy currency and the options selected. The default Guaranteed Crediting Interest Rate Lock period is 1-year, however there are also options for longer periods.

Other Important Notes

Right of Review

In order to provide the Benefits, we may review and supplement or amend certain clauses of your Policy. These include amendments to Policy related fees and charges.

We may make changes to the Policy if it is reasonably necessary to:

- ♦ give effect to:
 - ♦ applicable laws, rules, regulations; or
 - ♦ a change, recommendation, order, requirement, notice, direction, code, circular or guidance issued by any regulatory, supervisory, governmental, statutory authority, industry association, self-regulatory, or resolution body having jurisdiction over us or a court of competent jurisdiction; or
- ♦ reflect changes to or alignment with:
 - ♦ the operational costs, business operations or practices, systems and processes;
 - ♦ the industry or prevailing market conditions or practices; or
 - ♦ our agreement or arrangement with third-party service providers.

To the extent reasonably practicable, we will provide you at least 30 days' advance notice in writing before such change takes effect, unless otherwise stated.

If you do not agree with a change, you may, to the extent applicable:

- ♦ make a partial or full surrender;
- ♦ terminate the Policy; or
- ♦ change the coverage of your Policy.

Policy Owners' Protection Scheme

The Policy is protected under the Policy Owners' Protection Scheme which is administrated by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact HSBC Life or visit the LIA or SDIC websites (www.lia.org.sg or www.sdic.org.sg).

Glossary

Account Value

The accumulation of Premium(s) paid, plus the Crediting Rate(s) credited on a daily basis, reduced by the amount of any:

- ♦ Charges,
- ♦ Partial surrender amounts and the applicable Surrender Charges, and
- ♦ Accelerated Death Benefit payment paid under your Policy.

Age

The Life Insured's age last birthday.

AUD

Australian dollars.

Business Day

A day other than a Saturday, Sunday or public holiday on which banks are generally open for business in Singapore.

Cash Value

The value acquired by the Policy over time. We'll pay you this amount when you surrender the Policy in accordance with the terms of these General Provisions, less any amount that is due and owing to us.

Crediting Rate

The interest rate credited to part or all of the Account Value.

Death Benefit

The payment arising under the Policy in the event the Life Insured dies. Any surrenders or policy loans taken prior to the insured event could reduce the Death Benefit.

GBP

Sterling Pounds.

General Crediting Rate

The rate of interest credited to the Account Value of the Policy upon expiry of any Guaranteed Interest Rate Lock period and to the Account Value in relation to all Premium(s) paid into your Policy subsequent to the first Premium in your Policy.

Guaranteed Interest Rate Lock

The mechanism for guaranteeing a fixed rate of interest during the Guaranteed Interest Rate Lock Period.

Guaranteed Minimum Crediting Rate

The minimum interest rate used to calculate any crediting interest for the General Account. This is shown in the relevant Policy Schedule(s).

HSBC, we, us or our

HSBC Life (Singapore) Pte. Ltd.

Insurance Charge

The charge for cost of insurance that will be applied on the Sum at Risk on the Policy Effective Date and thereafter on each Monthly Anniversary Date. If the Sum at Risk is zero or less then no such charge will be deducted. The rate of Insurance Charge will be determined based on the prevailing mortality risk rates according to the Life Insured's age at the relevant Monthly Anniversary Date, gender, country of residence and underwriting class of the Life Insured. This charge is non-guaranteed. Refer to the Section, Charges, for more details.

Loyalty Bonus

The benefit payable to the Policyowner at the Policy Year 11 to Age 121 while the Policy is in force.

Monthly Anniversary Date

The day in each succeeding month corresponding to the Policy Effective Date, or if such date doesn't exist, then the last day of that month.

New Money Crediting Rate

The rate of interest credited to the Account Value of your Policy in respect to the first Premium paid into the Policy.

Policy

Your Jade Legacy Universal Life and Jade Ultra Legacy Universal Life Policy.

Policy Anniversary

The same day and month each year following the Policy Effective Date.

Policy Currency

The currency in which the Policy is denominated. This is shown in the relevant Policy Schedule(s).

Policy Expense Charge

The charge deducted from the Account Value on the Policy Effective Date for the first payment and, after that, on each Monthly Anniversary Date. Deductions are made for 18 Policy Years from the Policy Effective Date. Refer to the Section, Charges, for more details.

Policy Premium Charge

A Policy Premium Charge deducted from all Premium(s) paid. We'll do this before the Premium is allocated to the Account Value. Refer to the section about Charges, for more details.

Sum at Risk

The amount by which the specified Sum Insured exceeds the Account Value.

Surrenderable Portion

The portion of the Account Value attributable to the amount of Premium(s) cumulatively paid over and above the specified No-Lapse Guarantee Benefit minimum premium, excluding interest credited and all charges as at the date of Transaction.

Unscheduled Premium

Additional Unscheduled Premium payments that may be made at any time. We can refuse, reduce or limit the number or amount of Unscheduled Premium payments you can make in any Policy Year. You can't make additional Unscheduled Premium payments after the Policy Anniversary falling immediately before the Life Insured turns Age 100.

USD

United States dollars.

Notice to Applicant

You can seek advice from our representatives or appointed distributors before buying any insurance plan(s). The Life Insurance Association (LIA) has produced 'Your Guide to Life Insurance' that contains basic information about life insurance that you should be aware of before discussing your insurance needs with your financial adviser. Your financial adviser will give you a copy of the relevant guide.

Before you decide to buy any insurance plan(s), your financial adviser should explain the contents of all the necessary documents to your satisfaction. You should seek clarification and further advice if in doubt.

Buying an insurance plan that is not suitable for you may impact your ability to provide for your needs. You should consider whether the plan is suitable for you before buying.

Declaration by Applicant

I hereby confirm that the following named Authorised Intermediary/Representative of HSBC Life (Singapore) Pte. Ltd. has solicited insurance business from me in Singapore only.

I have decided to buy the following insurance plan:
-> **Jade Ultra Legacy Universal Life**

I have received a copy of the following documents and have read and understood the nature and purpose of the plan and the information disclosed within:

- > Product Summary (compulsory).
My financial adviser has explained to me the following:
 - > Nature and objective of product and how it is suited for my specific needs (such as time horizon and risk profile).
 - > Benefits of product.
 - > Risks associated with product.
 - > Fees and charges to be borne by me
 - > 14-days free-look period.
 - > Warnings, exclusions and disclaimers.
- > Signed Cover Page and Policy Illustration (compulsory).
- > Your Guide to Life Insurance (compulsory).
- > Personal Financial Review - a completed copy signed by me (compulsory).

I understand that the Jade Ultra Legacy Universal Life offers a long-term life insurance protection. I understand that the values shown in this illustration document contain non-guaranteed elements that are subject to change and may turn out to be higher or lower.

I confirm that the following named Authorised Intermediary/Representative has clearly explained to me that a positive or negative Currency Switch Charge may be applied at the discretion of the Company in the event of a currency transfer occurring at any time. The amount of Currency Switch Charge will be determined by various factors including but not limited to the investment market conditions.

Applicant's Signature	Date
Client	
Applicant's Name	

(Note: A signed copy of this acknowledgement will also be provided to you.)

Declaration by the Authorised Intermediary/Representative

I certify that the information contained in this illustration document has been clearly presented and explained to the Policyholder. I confirm that I have explained that the values shown in this illustration document contain non-guaranteed elements that are subject to change and may turn out to be higher or lower. I have also explained the potential risk effect of Currency Switch Charge for currency transfer. I have not made any statements that are inconsistent with this illustration, the product brochure or the policy terms and conditions for this insurance product.
