

This Cover Page is an important document.

- It highlights the key features and risks of this product and should be read together with the Policy Illustration, Product Summary and Bundled Product Disclosure Document, where applicable.
- It is important to read the Policy Illustration, Product Summary and Bundled Product Disclosure Document, where applicable, before deciding whether to purchase this product. If you do not have a copy of these documents, please contact us at 1800 248 8000 or your Financial Services Consultant / Insurance Representative to ask for them.
- You should not purchase this product if you do not understand or are not comfortable with the risks of this product.

AIA Platinum Legacy (IX)

Product Type	Universal Life Plan
Premium Term	Single Premium
Policy Term	Whole Life
Current Crediting Rate	4.70%
Guaranteed Crediting Rate	4.70% for the first 3 years 1.50% for subsequent years
Name of Insurer	AIA SINGAPORE PRIVATE LIMITED
Policy Currency	US Dollars

WHAT ARE YOU PURCHASING?

This is a non-participating universal life plan. It is a product which offers you insurance coverage and also invests part of your premiums in the insurer's Non-participating Fund. It comprises guaranteed and non-guaranteed benefits and may not be suitable for you if you want all benefits to be guaranteed.

WHAT ARE THE KEY RISKS OF A UNIVERSAL LIFE PLAN?

By purchasing a universal life plan, your premiums will be pooled together and invested with premiums from other policyholders in the Non-participating Fund managed by AIA SINGAPORE PRIVATE LIMITED. As a policyholder, the key risks commonly associated with universal life plan are:

Investment Risks	Lower than expected investment returns earned by the fund.
Insurance Risks	Higher than expected claims made by policyholders (e.g. due to death or other terminations).
Expense Risks	Higher than expected expenses incurred for managing the Non-participating Fund.
Currency Risk	If your home currency is not denominated in the U.S. Dollars, the payments you make or receive may be worth less over time when expressed in your home currency.

COVER PAGE FOR NON-PARTICIPATING UNIVERSAL LIFE PLAN

These risks can affect the crediting rate to be declared to and the charges to be deducted from the policy, which in turn affect the accumulation value.

Your policy will lapse if the accumulation value is insufficient to pay for the charges. In order to keep your policy in force, you may need to pay additional premium(s).

ARE THE UNIVERSAL LIFE ILLUSTRATED CREDITING RATE GUARANTEED?

The Policy Illustration shows two crediting rates – current and guaranteed crediting rate. Current crediting rate is not guaranteed and may increase or decrease after the 3 years guaranteed period for initial premium, subject to the guaranteed crediting rate as a minimum floor. The guaranteed crediting rate is guaranteed by the company.

ARE THE UNIVERSAL LIFE ILLUSTRATED CHARGES GUARANTEED?

The Policy Illustration shows two charges – current and maximum charges. Some charges may increase or decrease after the 3 years guaranteed period. Should the charges increased from their current level, a larger deduction will be made and this will impact the accumulation value of your policy. We may adjust the charges according to factors such as the expected future claims and expenses. However, the charges will never exceed the maximum level stated in your policy contract.

You may refer to the product summary for the details of the current and maximum charges for the policy.

WHAT RETURNS CAN YOU EXPECT FROM THIS POLICY BASED ON THE ILLUSTRATED CREDITING RATES AND CHARGES?

Based on the current crediting rate of 4.70% p.a. and current charges, your total Illustrated Yield upon surrender at age 112 is 3.03% p.a.

Based on the minimum guaranteed crediting rate of 1.50% p.a. and maximum charges, the policy is projected to have lapsed before age 112.

The total Illustrated Yields upon surrender have not taken into consideration any additional premiums paid, partial withdrawals made and loans taken. Please refer to the Policy Illustration for assumptions made. The actual benefits payable (if any) and coverage are not guaranteed and are dependent on the actual crediting rates (subject to the minimum guaranteed crediting rate) and charges (subject to the maximum charges) as well as the amounts of any additional premiums paid, partial withdrawals made and loans taken.

Depending upon actual experience, you may need to make additional premiums payment to keep the policy in force.

You can compare 3.03% Illustrated Yields upon Surrender at age 112 with the returns of Singapore Savings Bonds and Singapore Government Securities. You may refer to www.mas.gov.sg/bonds-and-bills/singapore-savings-bonds and www.mas.gov.sg/bonds-and-bills/singapore-government-bonds-information-for-individuals for more information on the returns of Singapore Savings Bonds and Singapore Government Securities. Please note that the Illustrated Yields upon Surrender at age 112 have taken into account the cost of insurance and expenses incurred.

HOW MUCH WILL YOU NEED TO PAY FOR ADVICE?

The total distribution cost of this product is the amount that you will pay for advice and for other distribution related expenses. It includes cash payments in the form of commissions and benefits paid to the financial advisory firm and its representative(s) who have provided you with financial advice. This is not an additional cost to you as it has been included in the premiums payable for this plan.

The Total Distribution Cost for this plan is \$1,368,803 as shown in the Policy Illustration. This makes up 12.8% of the total premiums payable.

WHAT HAPPENS IF YOU SURRENDER YOUR POLICY EARLY?

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

OTHER IMPORTANT INFORMATION

After purchasing a life insurance policy, you have a 14-day free-look period starting from the day you receive your policy documents to review the documents carefully. During this time, if you choose to cancel your policy, the insurer will refund you the premiums you have paid, less any medical fees and other expenses, such as payments for medical check-ups and medical reports, incurred by the insurer.

Introduction

This Policy Illustration is valid in Singapore and any other jurisdiction where it is not prohibited.

AIA Singapore Private Limited (AIA Singapore) believes that it is important that you fully appreciate the benefits of your policy. You should also understand how the cost of your insurance cover and the expenses of administration and sales affect the benefits that you will receive.

The illustration that follows shows how the value of your policy progresses over time and the sum(s) that would be payable. The methods used to derive the values shown follow guidelines established by the Life Insurance Association, Singapore, to ensure that a fair and consistent approach is used in preparing this illustration.

Please note that your policy illustration provides two sets of illustrated values:

(1) Illustrated values at the minimum guaranteed crediting rate and maximum charges

The crediting rate used in this illustration is a guaranteed minimum that cannot be lowered any further and charges are the maximum chargeable that cannot be increased any further.

(2) Illustrated values at the current crediting rate and current charges

The crediting rate used in this illustration, which does not exceed the rate supportable by underlying asset portfolio, is not guaranteed and may be varied at the company's discretion, subject to the guaranteed minimum. Charges are not guaranteed and may be increased in the future up to the maximum limits. The crediting rate and charges used are the rate and charges prevailing at the date of this illustration.

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid.

If you need clarification, please do not hesitate to ask your AIA Financial Services Consultant / Insurance Representative.

* The illustration takes into account the Guaranteed Crediting Rate (on the Initial Premium) for the first 3 years of 4.70% and Guaranteed Special Bonus payable at the end of Policy Year 10, 15, 20 and 30.

Crediting rate of 4.70% p.a. is applicable on initial premium and subsequent premiums (if any).

Day 1 Cash Value is illustrated to be USD 8,576,905.

Minimum Premium required for each of the first 8 years is USD 1,282,740.

This is only a supplementary illustration and must be read in conjunction with the main policy illustration.

Based on the minimum guaranteed crediting rate of 1.50% p.a. and maximum charges, the policy is projected to have lapsed before age 112.

Based on the current crediting rate of 4.70% p.a. and current charges, your total Illustrated Yield upon surrender at age 112 is 3.03% p.a.

What is the significance of the Illustrated Investment Rate of Return?

The illustrations have been prepared on two sets of assumptions regarding the crediting rate and charges applicable to the policy:

- (1) The illustrated values at guaranteed crediting rate of 1.50% p.a. and maximum charges represent the lower benefit limits of the policy.
- (2) The illustrated values at current crediting rate of 4.70% p.a. and charges are based on rates and charges prevailing at the date of this illustration.

Under both sets of assumptions, the illustration takes into account the guaranteed crediting rate of 4.70% for the first 3 years and Guaranteed Special Bonus payable at the end of Policy Year 10, 15, 20 and 30.

Crediting rate of 4.70% p.a. is applicable on initial premium and subsequent premiums (if any).

The actual crediting rate applicable to your policy may be different to those shown in the illustrations, which are purely illustrative. The actual rates may be higher or lower depending on future investment performance.

The actual benefits payable (if any) and coverage are not guaranteed and are dependent on the actual crediting rates (subject to the guaranteed crediting rate) and actual charges (subject to the maximum charges) as well as the amounts of any additional premiums, partial withdrawals made and loans taken.

Depending upon actual experience, you may need to make additional premiums payment to keep the policy in force.

What is the Illustrated Yield upon Surrender?

The Illustrated Yields upon Surrender represent the annualised investment return you may receive upon the surrender of the policy at the age of 112, net of the cost of insurance and charges, based on the Illustrated Crediting Rates and Charges.

The Illustrated Yields upon Surrender based on current crediting rate and current charges is not guaranteed and do not represent the upper and lower limits on the yield you could receive on this policy.

The total Illustrated Yields upon Surrender have not taken into consideration any additional premiums paid, partial withdrawals made and loans taken. The actual benefits payable (if any) and coverage are not guaranteed and are dependent on the actual crediting rates (subject to the minimum guaranteed crediting rate) and actual charges (subject to the maximum charges) as well as the amounts of any additional premiums paid, partial withdrawals made and loans taken.

Please note that the guaranteed benefit you receive upon the surrender of the policy may be less than the total premiums paid.

What is the impact of deductions on what you might get back?

The following table illustrates the effect that deductions will have on the amount you get back on surrender or maturity. It also highlights the cost of surrendering the policy early.

TABLE OF DEDUCTIONS

End of Policy Year / Age	Total Premiums Paid To-date (\$)	DEDUCTIONS					
		Illustrated Values at Minimum Guaranteed Crediting Rate 1.50% & Maximum Charges			Illustrated Values at Current Crediting Rate [#] & Current Charges

[#] Crediting rate of 4.70% p.a. is applicable on initial premium and subsequent premiums (if any).

What do the columns in the table of deductions mean?

- "Value of Premiums Paid To-date" is obtained by accumulating the premiums paid to date at the Illustrated Crediting Rate, assuming the premiums paid can be invested without deduction for the cost of insurance and without any expenses.
- The difference between the "Value of Premiums Paid To-date" and "Surrender Value" represents the "Effect of Deductions To-date". This is the accumulated value of the deductions for the cost of insurance, distribution cost, expenses, surrender charge, expected tax payments, and expected transfers to shareholders (for participating policies).

How much are you paying for distribution costs?

This table shows the total costs of distribution that AIA Singapore expects to incur in relation to your policy, including the cost of any financial advice provided to you.

TOTAL DISTRIBUTION COST		
End of Policy Year / Age	Total Premiums Paid To-date (\$)	Total Distribution Cost To-date (\$)
1/73	10,672,432	1,368,803
2/74	10,672,432	1,368,803
3/75	10,672,432	1,368,803
4/76	10,672,432	1,368,803
5/77	10,672,432	1,368,803
6/78	10,672,432	1,368,803
7/79	10,672,432	1,368,803
8/80	10,672,432	1,368,803
9/81	10,672,432	1,368,803
10/82	10,672,432	1,368,803
15/87	10,672,432	1,368,803
20/92	10,672,432	1,368,803
25/97	10,672,432	1,368,803
30/102	10,672,432	1,368,803
35/107	10,672,432	1,368,803
40/112	10,672,432	1,368,803

What does the last column represent?

1. The Total Distribution Cost To-date is the sum of each year's expected distribution-related costs, without interest. Such costs include cash payments in the form of commission, costs of benefits and services paid to the distribution channel.
2. Please note that the Total Distribution Cost is not an additional cost to you; it has already been allowed for in calculating your premium.
3. You can obtain the Total Distribution Cost of each of the supplementary benefits (if applicable) from your Financial Adviser or AIA Financial Services Consultant / Insurance Representative.

Explanatory Notes to Policy Illustration:**Your Policy Illustration and Supplementary Illustration provide two sets of illustrated value**

- (1) Guaranteed Basis (Illustrated values at the Minimum Guaranteed Crediting Rate and Maximum charges)
The Cash Value, Accumulation Value and Death Benefit are illustrated as follows:
- (a) For Initial Premium, the crediting rate below is applicable:
From year 1 to year 3: 4.70% per annum
From year 4 to year 50: 1.50% per annum
 - (b) For subsequent premiums, the Minimum Guaranteed Crediting Rate of 1.50% per annum is applicable;
 - (c) The Maximum charges are the maximum amount of Premium Charge, Administration Charge and Insurance Risk Charge that can be deducted.
 - (d) Guaranteed Special Bonus is payable at the end of Policy Year 10, 15, 20 and 30.
- (2) Non-guaranteed Basis (Illustrated values at the Current Crediting Rate and Current charges)
The Cash Value, Accumulation Value and Death Benefit are illustrated as follows:
- (a) For Initial Premium, the crediting rate below is applicable:
From year 1 to year 3: 4.70% per annum (guaranteed)
From year 4 to year 50: 4.70% per annum
 - (b) For subsequent premiums, the crediting rate of 3.70% per annum is applicable;
 - (c) The Current charges are the current amount of Premium Charge, Administration Charge and Insurance Risk Charge being deducted.
 - (d) Guaranteed Special Bonus is payable at the end of Policy Year 10, 15, 20 and 30.

Note: The Current Crediting Rate used, which does not exceed the rate supportable by underlying asset portfolio, is not guaranteed and may be varied at the Company's discretion, subject to the Minimum Guaranteed Crediting Rate. The Current charges are not guaranteed and may be varied at the Company's discretion, subject to the maximum limit.

The Current Crediting Rate and Current charges used are the rate and charges prevailing at the date of this illustration. Please note that this Policy Illustration will only be valid if your Policy is incepted before any revised Current Crediting Rate or/ and Charges is/ are effected.

Crediting Rate

The actual crediting rate applicable to your Policy may be different from the crediting rate shown in the Policy Illustration.

The rate used is purely for illustrative purpose – the actual crediting rate, subject to the Minimum Guaranteed Crediting Rate, may be higher or lower depending on the timing of the Initial Premium payment and subsequent premium payments.

The crediting rates for subsequent premium payments may be different from that for the Initial Premium.

Guaranteed Special Bonus

Guaranteed Special Bonus is the bonus payable while your Policy is in-force.

<u>End of Policy Year</u>	<u>Special Bonus Rate (% of prevailing Accumulation Value)</u>
10	0.50%
15	1.00%
20	1.50%
30	1.50%

Total Premiums Paid to Date

This is the sum of the periodic premium payments you plan to make each year. The timing and amount of premium payments you make after the Initial Premium is flexible, provided that the Minimum Premium Requirement as set out in product summary is met. We will continue to deduct the applicable charges even when there is no premium payment made.

Annual Withdrawal

These are the withdrawals that you plan to make from the Policy. The withdrawals are illustrated only in the supplementary illustration, and are based on the Current Crediting Rate and Current charges illustration. Any applicable Partial Withdrawal Charge will be applied accordingly.

Cash Value

For the main policy illustration, the Cash Value is the illustrated amount you will receive if you surrender the Policy. This is the illustrated Accumulation Value less any applicable surrender charge. It has been calculated assuming no policy loan and no Annual Withdrawals have been made on your Policy.

For the supplementary illustration, the Cash Value is the illustrated amount you will receive if you surrender the Policy. This is the illustrated Accumulation Value less any applicable surrender charge. It has been calculated assuming no policy loan has been made on your Policy.

Accumulation Value

For the main policy illustration, the illustrated Accumulation Value is the sum of premiums paid and interest earned based on the applicable crediting rates less any charges deducted. It has been calculated assuming no policy loan and no Annual Withdrawals have been made on your Policy.

For the supplementary illustration, the illustrated Accumulation Value is the sum of premiums paid and interest earned based on the applicable crediting rates less any Annual Withdrawals and charges deducted. It has been calculated assuming no policy loan has been made on your Policy.

Death Benefit

For the main policy illustration, the illustrated Death Benefit has been calculated assuming no policy loan and no Annual Withdrawals have been made on your Policy.

For the supplementary illustration, the illustrated Death Benefit has been calculated less any applicable Annual Withdrawals and charges deducted, but assuming no policy loan has been made on your Policy.

The actual Cash Value, Accumulation Value and Death Benefit are not guaranteed and are dependent on the actual crediting rates and charges, the timing and amount of subsequent premium payments, the timing and amount of withdrawals and policy loans, and changes to your Insured Amount.

Summary of Charges

The charges applicable to your policy are:

1. Premium Charge

6% of premiums paid (applicable to the initial, and subsequent premiums (where applicable))

2. Administration Charge (Per US\$1,000 Current Insured Amount)

The administration charge rate varies according to the Insured's smoker status and attained age as at the effective date of each layer and will be deducted from the accumulation value on a monthly basis for 10 years commencing from the effective date of respective layer. A new layer will be created for each increase in current insured amount. The administration charge rate shown in table below is applicable to the first layer only. Please refer to the policy contract for the administration charge rates for subsequent layer.

Policy Year	Administration Charges Rates for the First Layer
1 to 10	11.12

3. Partial Withdrawal/ Surrender Charge (Per US\$1,000 Current Insured Amount)

The partial withdrawal/ surrender charge rate varies according to the Insured's gender, country of residence, smoker status, class of risk and attained age as at the effective date of the layer and number of years from the effective date of that layer from which the partial withdrawal is made.

The partial withdrawal/ surrender charge is applicable in the first 15 years from the effective date of each layer, and is applied upon a partial withdrawal, upon a full surrender, as a result of a reduction in the current insured amount, or on termination of the policy if the required premiums are not paid by the expiry of the grace period. A new layer will be created for each increase in current insured amount.

The partial withdrawal/surrender charge rate shown in table below is applicable to the first layer only. Please refer to the policy contract for partial withdrawal/surrender charge rate for subsequent layer.

Policy Year	Partial Withdrawal/ Surrender Charge for First Layer
1	71.49
2	71.49
3	71.49

4. Insurance Risk Charge (IRC)(Per US\$1,000 Sum At Risk)

The applicable IRC rates will be based on the Insured's gender, attained age, country of residence, smoker status, other rating classes and any extra charges (if applicable) including but not limited to medical loading and is applied on the sum at risk on a monthly basis. The IRC rates for the first 5 policy years are guaranteed. We reserve the right to increase the IRC up to the maximum IRC charges as specified in table below.

The sum at risk is calculated by deducting the accumulation value (before the IRC deduction is made for the applicable month and after the deduction of administration charge) from the current insured amount before indebtedness.

This policy is protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact your insurer or visit the GIA/LIA or SDIC web-sites (www.gia.org.sg or www.lia.org.sg or www.sdic.org.sg).

Declarations:

1. I acknowledge receipt of all pages of the Cover Page, Product Summary, Product Highlights Sheet and Bundled Product Disclosure, wherever applicable. The AIA Financial Services Consultant / Insurance Representative has explained the values/ key benefits/ information in the Cover Page, Product Summary and Bundled Product Disclosure, wherever applicable, to my satisfaction and that I have read and understood their contents.
2. I understand that any non-guaranteed benefits (if any), including where applicable, current crediting rate, assumed in the Cover Page, Product Summary and Bundled Product Disclosure, wherever applicable, are subject to change and are not guaranteed.
3. I understand that the Cover Page, Product Summary and Bundled Product Disclosure, wherever applicable, do not form a part of any contract of insurance. They are simplified description of the product features and general exclusions and are not exhaustive.
4. I understand that it is the precise terms and conditions as appear in the policy contract which will bind the parties.
5. I have personally signed on this page.
